PVC FOAM BOARD / WPC FOAM BOARD

WPC(PVC)发泡板

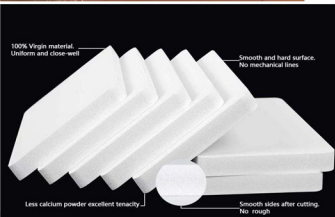

WPC(PVC) Foam Board

High Quality

PVC Foam Board

WPC Foam Board

Specification:

Size: 1220*2440mm, 915*1830mm(or customized)

Thickness: 3-20mm

Density:0.35-0.85g/cm3

Color: white,black,red,yellow,blue,green,pink,orange

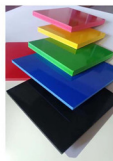

Surface:matte or glossy

Product features

Good Flexibility

Good Hardness

Accurate Thickness

Waterproof

Advantages & Characters

Environmental Friendly:

- *No any benzene and the formaldehyde discharge, Non-toxic
- *Sound-insulated

Energy Saving:

- *Made from the waste lumber, so can get high-usage of the lumber
- *High recyclable, eco-friendly, saving forest resources

Good Appearance:

- *The surface is smooth
- *with the look of the natural wood but less timber problems
- *Amazing colors and rich in colors. High glossy and matte is available

Adaptability

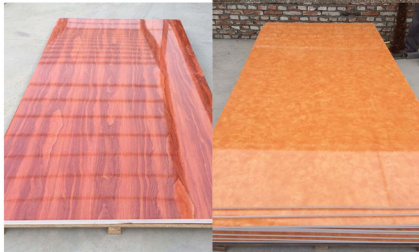

- *Waterproof, no moisture absorption, no mildew, less rotten, proven under salt water condition
 - *Weather resistant, suitable from minus - 30 to 90 centigrade degree, non-deformation
 - *Fire retardant and self-extinguishing, automatically extinguish by itself and meet the standard of GB/B1
 - *Heat insulation and heat preservation, In the physical characteristics, it has a low thermal conductivity as the lumber, which means it can prevent heat in summer and keep heat in winter.
 - *Borer proof, WPC can get rid of insect, Well done of termites and so on
 - *Perfect chemical resistance, good resistance to light and UV
- #### Good Mechanical Performance:
- *Easy to cut, easy to be edge-covered in machine
 - *Easy to nail, hammered, drilled, sawed, turned, glued, bended, printed, oiled, thermoforming
 - *Easy to clean
 - *Tough, rigid with the high impact strength, less crack, less break and less warping
 - *Requires no painting, Stable color retention, no glue, low maintenance

木塑家具板 WPC Furniture Board

WPC FOAM BOARD

HPL film Surface
Acrylic film Surface
PVC film Surface
Hot Stamping film Surface

Specification:

Size: 1220*2440mm
Base Board: WPC FOAM BOARD
Surface: Lamination or hot stamping
Thickness: 3-20mm
Density: 0.5-0.7g/cm3

Surface with HPL film, PVC film,
Acrylic film, hot stamping film

Application:

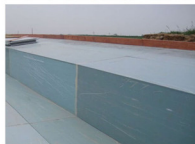

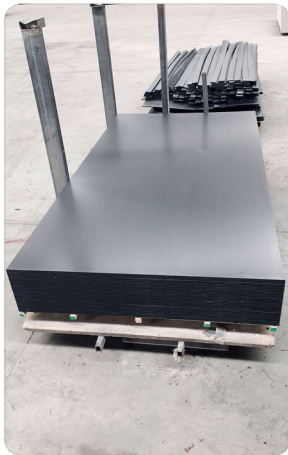

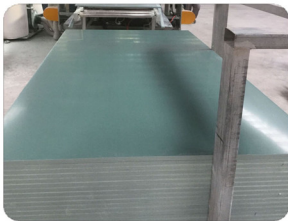

Furniture board
Cabinet board
Door board
Decoration board

木塑家具板 WPC Furniture Board

木塑建筑模板 WPC Shuttering Board

木塑建筑模板 WPC Shuttering Board

WPC Formwork Panel Building Templates

Specification:

Size: 1220*2440mm, 915*1830mm

Thickness: 6-20mm

Density: 0.7/0.75g/cm³

Color: Dark green, black, red, white

Advantages in building construction- formwork board

1. Easy to take off from the concrete. Concrete won't be sticky to this kind of board.
2. Adjustable size. The board size is adjustable according to the requirement from the builder.
3. Shiny and Smooth surface. The concrete is with smooth surface after stripped.
4. Steady quality. The wpc board is with very good mechanical strength, it can work well in -20 to 100 degree.
5. Easy to install and save labor. It is in light weight and can be processed to any shape and size, save labor.
6. Product attribution is good. wpc board is antiseptic, inflammable, retarding and waterproof.
7. Energy saving and environment protect.
8. Lower cost. Turnover can be up to over 20-30 times, so deeply reduce the cost.
